BIOMETRIC VERIFICATION FOR v7

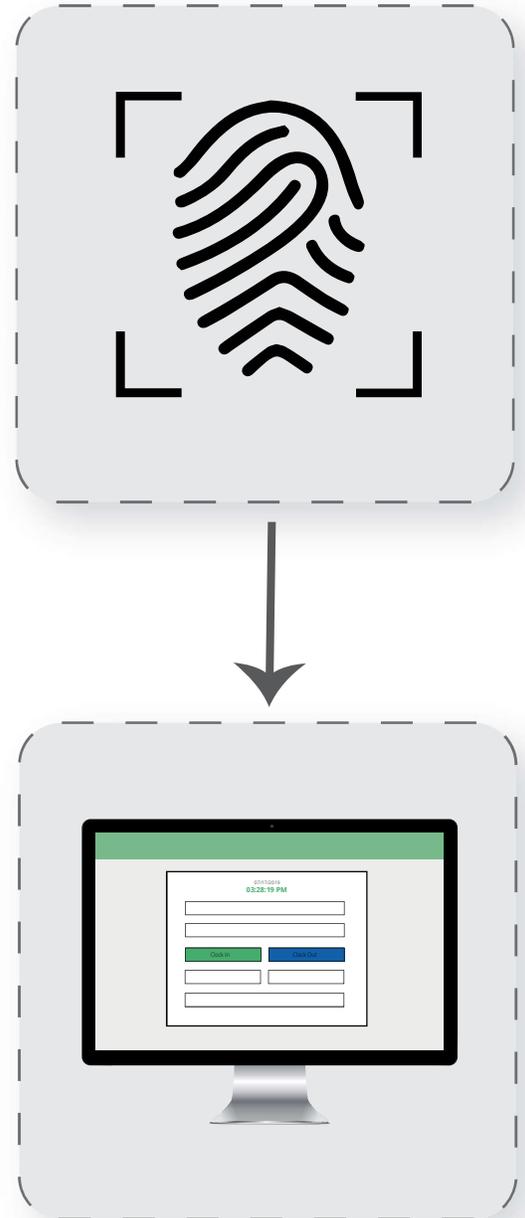

TimeClock Plus biometric verification products offer the latest in biometric technology, utilizing optical fingerprint scanners to provide accuracy and reliability while allowing forgiveness for fingerprint placement angles. Working in conjunction with our software, and requiring no more than an ID number and a fingerprint, these devices ensure the legitimacy of your payroll and save you money by discouraging or preventing fraudulent clock operations.

COMPLIANCE FEATURES

- General Data Protection Regulations (GDPR) Compliant
- Illinois BIPA Compliant
- Employee Biometric Attestation at Enrollment
- Automated Biometric Removal After Termination
- Encrypted Biometric ID In Motion and At Rest
- Non-reproducible Fingerprint Template
